Refer to each EuroMed Youth Unit Guidelines where this has been specified.

**8. As the "host" organisation, could we send the volunteers to do a large part of their voluntary service and be accommodated in some of our local partner organisations?**

NO, as hosting you can only host volunteers (the programme does not foresee for ENPI entities to "send" volunteers but only "receiving/hosting" them):

- As "host organisation", you have the responsibility to mentor the volunteer and to ensure a good coordination with your local partner organisations.

No, the applying county is the only hosting country.

There is no limitation on the number of participants; it is up to you the Applicants to determine such details, based on the project design and budget.

**11. If an international organisation located in Europe is one of the partners and the participants it sends to a MEDA (now ENPI South) country are from different countries – is that a bilateral or a multilateral action?**

In youth exchanges (Action 1), this structure is not allowed, since the participants should be from organisation's respective country. While in Actions 2 and 3, where this structure is allowed, is still defined as bilateral.

The definition of projects as bilateral and multilateral is based on the number and identity of the partner organisations, not the individuals taking part in the project. A multilateral action is when two entities (or three) from ENPI South Country/Territory and two entities (or three) from EU Member States are in partnership for the implementation of an action.

**16. Who are the "stakeholders"?**

You may find a definition of "stakeholders" in the Glossary of key terms of the Project Cycle Management Guidelines

at [http://ec.europa.eu/europeaid/multimedia/publications/publications/manuals-tools/t101\\_en.htm](http://ec.europa.eu/europeaid/multimedia/publications/publications/manuals-tools/t101_en.htm)

**30. Is it possible to sub-contract the management of the Action?**

As indicated in the eligibility criteria in section 2.1.1 the Applicant and partners must be directly responsible for the preparation and the management of the proposed action. Consequently, the Applicant may not subcontract the management of the action to another organisation.

NB: Subcontracting project management to another organisation (which is prohibited) should not be confused with recruiting a member of the proposed project's personnel through a service contract: (i.e. the person will not appear on the payroll of the grant beneficiary) to perform "project management" tasks. This method of personnel recruitment must follow the procurement procedures set out in annex IV to the standard grant contract (see annex IV – Contract award procedures, available at published on each respective EuroMed Youth Unit website as annex to the Guidelines).

The position of organisations receiving operating grants is dealt within the provision of the General Contract Conditions available as published on each respective EuroMed Youth Unit website as annex to the Guidelines.

**34. Should the partner country organisation or the EU-based organisation apply as Applicant?**

Kindly refer to answer (32) above.

**35. What are the differences between partners, associates and subcontractors?**

Please refer to section 2.1.2 of the Guidelines for grant Applicants for information on partners, associates and subcontractors.

A partner is an entity that fulfils eligibility criteria, in case an entity which does not satisfy the eligibility criteria and wishes to participate to the action implementation they are allowed ONLY as associate (only travels and per-diem are eligible, no other costs). Applicant, Partner and Associate are very well explained in the Guidelines, the same applies for sub-contractor

Partners are actively involved in the design and implementation of the action and therefore have the right to be reimbursed for the related eligible costs. Associates are an interested party taking part in the implementation of the action but are not involved in its design and their costs are not covered by the grant except for travel and per diem costs.

Associates cannot be taken into account with regard to any partnership composition requirements of a Call.

As also indicated in the above-mentioned section, the grant beneficiaries have the possibility to award contracts to subcontractors for services, supplies and works. Subcontractors are neither partners nor associates.

Please be informed that via clarification, the contracting authority will not take any specific position especially related to relevance and/or eligibility.

## **V. EVALUATION QUESTIONS**

**48. We are a small NGO with a small yearly turnover. What are our chances of being selected?**

As indicated in section 2.3 of the Guidelines for grant Applicants, in the full application grid under section 1, "Financial and Operational Capacity", sub-criteria 1.1-1.3 relate to the capacities of both Applicant and partners in terms of project management experience, technical expertise and financial management, whilst sub-criterion 1.4 relates to the sources of finance of the Applicant only. It is therefore important that the scale of the proposed action and its related budget is coherent with the size, past experience and available resources of the organisations involved in the partnership.

**49. How will the financial capacity of Applicant organisations from the beneficiary countries be taken into account in the evaluation?**

Kindly refer to answer 21 and answer 48 above.

## **VI. BUDGETARY QUESTIONS**

**50. Explain in the easiest way possible the difference between Lump sums and Flat rates.**

Lump sums are for money provided to a third party; flat-rates are money retained by the Applicant.

**51. How should the Budget be distributed between Applicant and partners?**

As stipulated in sections 2.1.1 and 2.1.2 of the Guidelines for grant Applicants, if the proposal is selected, the Applicant (the "beneficiary") will act as the only contracting party to the Contracting Authority.

The Applicant is in charge of the overall project management and is responsible to the EU for the implementation of the contract and for the use of funds. The Applicant signs the contract, receives funds, reports (both technical and financial) on the implementation of the action and on the use funds.

It is up to the Applicant to decide how the funds advanced by the Contracting Authority are allocated and distributed to and between the partners, in line with the objectives of the action.

Each partner must provide evidence of expenditure modalities and that they have been indeed incurred to the Applicant, who in turn reports to the Contracting Authority. In this respect it may be advisable that the Applicant and the partners sign an agreement including reporting modalities and an internal budget breakdown between the Applicant and the partners.

**52. The budget template has some formulas. Can we add formulas?**

Please do not change existing formulas, in order to not interfere with the document's configuration.

**53. The budget does not have detail for activities. Should this be the case or do you need details to be added?**

The budget must be filled in based on the available budget lines in the template, allowing for flexibility and sufficient details. Any other costs not included in the specific lines can be added (in more lines) dedicated to other costs. Each of the added budget line in other costs must be clearly indicated and described.

**54. What types of cost can be considered as eligible costs?**

For eligible costs, please refer to section 2.1.4 of the Guidelines for grant Applicants.

**55. From which sources should the balance be financed?**

As stipulated in section 1.3 of the Guidelines for grant Applicants, the balance (i.e. the difference between the total cost of the action and the amount requested from the Contracting Authority) must be financed by the Applicant's and/or partner's own resources or other sources apart from the European Union budget or the European Development Fund.

This being said, it is up to the Applicant to decide on the most appropriate sources of funding for the action.

**56. Can staff salaries be counted as contributions in kind?**

As set out in Section 2.1.4 of the Guidelines for grant Applicants, the cost of staff assigned to the action is not a contribution in kind and may be considered as co-financing in the budget of the action when paid by the beneficiary or partners. Nevertheless, salaries paid to staff working for other projects cannot be charged to the new proposed action. Furthermore, unpaid staff (voluntary works) would be considered as a contribution in kind.

**57. When converting from a local currency into EUR, should the current exchange rate be used or the exchange rate applicable at the end of each respective financial year?**

For the purpose of preparing an application, the exchange rate used should be the most recent one published on the InforEuro website at the time of proposal submission. The InforEuro site can be accessed at the following address: <http://ec.europa.eu/budget/inforeuro/index.cfm?Language=en>

As stipulated in Article 15.8 of the General Conditions, your final financial report should consider the average InforEuro rate of exchange of the months during which the action is implemented..

**58. Are action costs incurred before the signing of the contract eligible for co-financing?**

As indicated in section 6.2.8 of the Practical Guide to contract procedures for EC external actions (PRAG)

[http://ec.europa.eu/europeaid/work/procedures/implementation/practical\\_guide/documents/2010\\_prag\\_en.pdf](http://ec.europa.eu/europeaid/work/procedures/implementation/practical_guide/documents/2010_prag_en.pdf)

Grants may, as a rule, only cover costs incurred after the date on which the grant contract is signed.

**59. Is it possible to finance the travel costs completely with funds other than from the EU?**

All costs related to the project should be listed in the budget regardless of who pays for what component. Co-financing is applied to the entire budget and not to certain segments of it. The EU will contribute based on the percentage of the total eligible cost indicated in the contract Special Conditions and the beneficiary is responsible to co-fund the rest from whatever sources (see also answer 55).

**60. Is it correct that (under Action 2 EVS) volunteer accommodation and meals are excluded from eligible costs? Should these costs then not be included in the budget?**

No, that is incorrect, there is a specific budget component of a lump sum of 360 euro's per month per volunteer specifically designated to cover such costs (table 1 of article 2.1.4). Thus it is eligible, but included in a lump sum format. In addition a monthly allowance allocation is also eligible (table 2 of article 2.1.4).

**61. In regard to the Budget Appendix Table: there is a separate line for the budget, including taxes, while in another line it is required to write the full amount without tax (excluding taxes).**

**Is there a need to separate the tax from the estimated price of each section (line)? If so, how can you calculate it, since some of the sections are intended for other countries, then the percentage of the tax changes?**

This budget line is only to be utilised: *“Taxes, including VAT. Only to be filled in where the Beneficiary (or where applicable, its partners) can show it cannot reclaim them.”* All other costs must exclude any taxes and/or VAT.

**62. In relation to eligible costs for action 3- training and networking - activity per cost, base A ( food & lodging ) does not appear (Guidelines table Article 2.1.4).**

**The same enquiry applies for Action 1- Youth exchange/ activity per cost, where Base B & C are not indicated?**

For Action 3, there is Flat rate + Lump sum (base C) + Lump sum (base B), and this is clearly indicated under eligible costs: lodging, meals, ...

For Action 1: Flat rate (360) + Flat rate (200) + Lump sum (Base A), and this is clearly indicated under eligible costs: lodging, meals, ...

**63. Trainer fees and Training Materials are not indicated as eligible costs under Youth Exchange?**

Because a youth exchange is not a training course and does not require to hire trainers. Youth leaders should be the ones of the partner organisations.

As for training materials, the same, material costs required for a youth exchange should be included in the costs of the lump sum and the 2 flat rates of the activity per se.

## **VII. SUPPORTING DOCUMENTS**

**64. When do supporting documents need to be submitted?**

Refer to Article 2.4 of the published Guidelines.

**65. As it is not possible to upload originals of the supporting documents, should copies be certified?**

It is not necessary to provide certified copies, but the copies must be true copies of the originals, that is they must be legible and clearly show the signatures, dates, stamps, etc. Copies in the form of unsigned computer printouts or in illegible hand-writing, for example, will not be accepted.

**66. Should translations of supporting documents (e.g. statutes or articles of association) be certified translations?**

It is not necessary for translations to be certified and only the relevant parts of the supporting documents proving the eligibility of the Applicant or partner organisation (nationality, type of organisation, non-profit-making objectives etc.) need to be translated.

**67. Our proposal was rejected. Could you send us specific comments concerning our proposal?**

Refer to Article 2.5 of the published Guidelines.

**68. My proposal was rejected. Can you let me know the scores of the selected projects?**

The scores awarded for the different evaluation criteria are communicated only to unsuccessful Applicants in order to help them improve their proposals for potential future submissions. If the rejection is due to administrative matters, assessment is not carried out.

**69. When will we be notified whether our Full Application was successfully evaluated?**

Refer to Article 2.5.2 of the published Guidelines

**70. Are the results of the Calls for Proposals published?**

The results of each Call for Proposals are published on each specific EuroMed Youth Unit website.

**71. Is there a realistic chance that our reserve-listed proposal will still obtain funding?**

Unfortunately we are unable to give you an indication concerning the probability of a reserve-listed proposal eventually obtaining funding.

While the Evaluation Committee is responsible for recommending the reserve list, it has no involvement in the contractualisation process and therefore cannot predict the potential future availability of funds that could be transferred to reserve-listed proposals.
